

Uyghur Muslims

Artist's Commentary

I researched the Uyghur Muslims genocide in Xinjiang, China. These Uyghurs have been persecuted for years and it is still an ongoing issue. This issue is very similar to the Holocaust. The goal of the Holocaust was for Germany to be narrowed down to one group of people. Similarly, the goal China has is to get rid of these Uyghur Muslims and other religions (although this genocide focuses on the Uyghurs), too, in effect, become one group of people. China has persecuted over one million Uyghurs, which is over 8% of the overall population of Uyghurs in that area.

The video listed on the following slide gives you a deeper understanding of the issue and what we can do to help. Although we are limited as to what we can do since we are thousands of miles away, there are still ways that can make us more aware of the issue and make this issue noticed worldwide.
